**API & Integrations:** REST APIs, Laravel API Integration, Payment Gateway Integration, Google Maps API

**UI/UX Implementation:** Figma to Flutter, Responsive UI, Pixel-Perfect Mobile Screens, Custom Widgets

**Methodology:** Agile · Unit Testing · Code Review

**App Support:** Bug Fixing, App Maintenance, Performance Optimization, Feature Updates

**Deployment & Tools:** Google Play Console, Apple App Store Connect, Git, GitHub, VS Code, Android Studio, Postman, CI/CD

### WORK EXPERIENCE

#### Freelance Flutter Mobile App Developer | Fiverr, Upwork & Direct Clients

OCT 2020 - Present | Remote

- Developed, maintained, fixed, and published mobile apps for clients across Fiverr, Upwork, and direct projects.
- Built 20+ Android and iOS mobile apps using Flutter and Dart for startups, businesses, and MVP-stage products.
- Converted Figma designs, wireframes, and client ideas into clean, responsive Flutter mobile app screens.
- Integrated Firebase services including Authentication, Firestore, Storage, and Push Notifications.
- Connected mobile apps with REST APIs, Laravel backends, payment gateways, Google Maps, and third-party services.
- Fixed bugs, improved app performance, updated outdated app features, and supported long-term app maintenance.
- Helped clients publish and update apps on Google Play Store and Apple App Store.
- Worked on booking apps, food delivery apps, eCommerce apps, healthcare apps, roadside assistance apps, kids learning apps, and custom business apps.
- Followed Agile development practices with regular client updates, sprint-based delivery, and iterative feedback cycles.

### SELECTED MOBILE APP PROJECTS

#### Fixora - Home Services Booking App | Flutter, Dart, Firebase, REST APIs, Push Notifications

- Built a Flutter app for booking home services with onboarding, authentication, service categories, provider details, booking flow, booking history, and profile screens.
- Integrated Firebase Authentication and backend APIs for user data, service listings, and booking management.

#### Pizzaro - Food Delivery App | Flutter, Dart, Firebase, Laravel REST API, Maps, Payments

- Developed customer-facing screens for menu browsing, pizza customization, cart, checkout, offers, favorites, profile, and order tracking.
- Connected Laravel REST APIs for menu management, orders, payments, and delivery assignment; used Firebase for real-time order status updates.

#### BrightMinds - Kids Learning App | Flutter, Dart, Firebase, UI/UX Implementation

- Built a colorful, responsive learning app with onboarding, authentication, learning modules, categories, and child-friendly navigation.

#### Mobile App Maintenance & Bug Fixing Projects | Flutter, Dart, Firebase, REST APIs, Android, iOS

- Maintained existing apps by fixing Firebase, API, layout, authentication, performance, and deployment-related issues.
- Supported app updates for Google Play Store and Apple App Store releases.

#### MediGo — Pharmacy & Medicine Delivery App | Flutter, Dart, Firebase, REST APIs, Payments

- Built a full-featured pharmacy delivery app with prescription upload, medicine categories, real-time order tracking, pharmacy listings, secure payments, and push notifications for Android & iOS.
- Integrated Firebase Authentication, Firestore for real-time data, and REST APIs for pharmacy and product management.

## **TowHero — Car Towing & Roadside Assistance App | Flutter, Dart, Firebase, Maps, Payments**

- Developed a roadside assistance app with 24/7 emergency tow requests, live tow tracking, multi-vehicle management, subscription plans, service history, and secure payments.
- Integrated Google Maps for real-time tracking, Firebase for live updates, and payment gateway for subscription and one-time payments.

## **FreshCart — Grocery Delivery App | Flutter, Dart, Firebase, REST APIs, Payments**

- Built a grocery delivery app with multi-store browsing, product categories, cart management, real-time order tracking, exclusive deals, and multiple payment options including UPI and cards.
- Connected REST APIs for product and order management with Firebase for real-time delivery status updates.
